Static banner

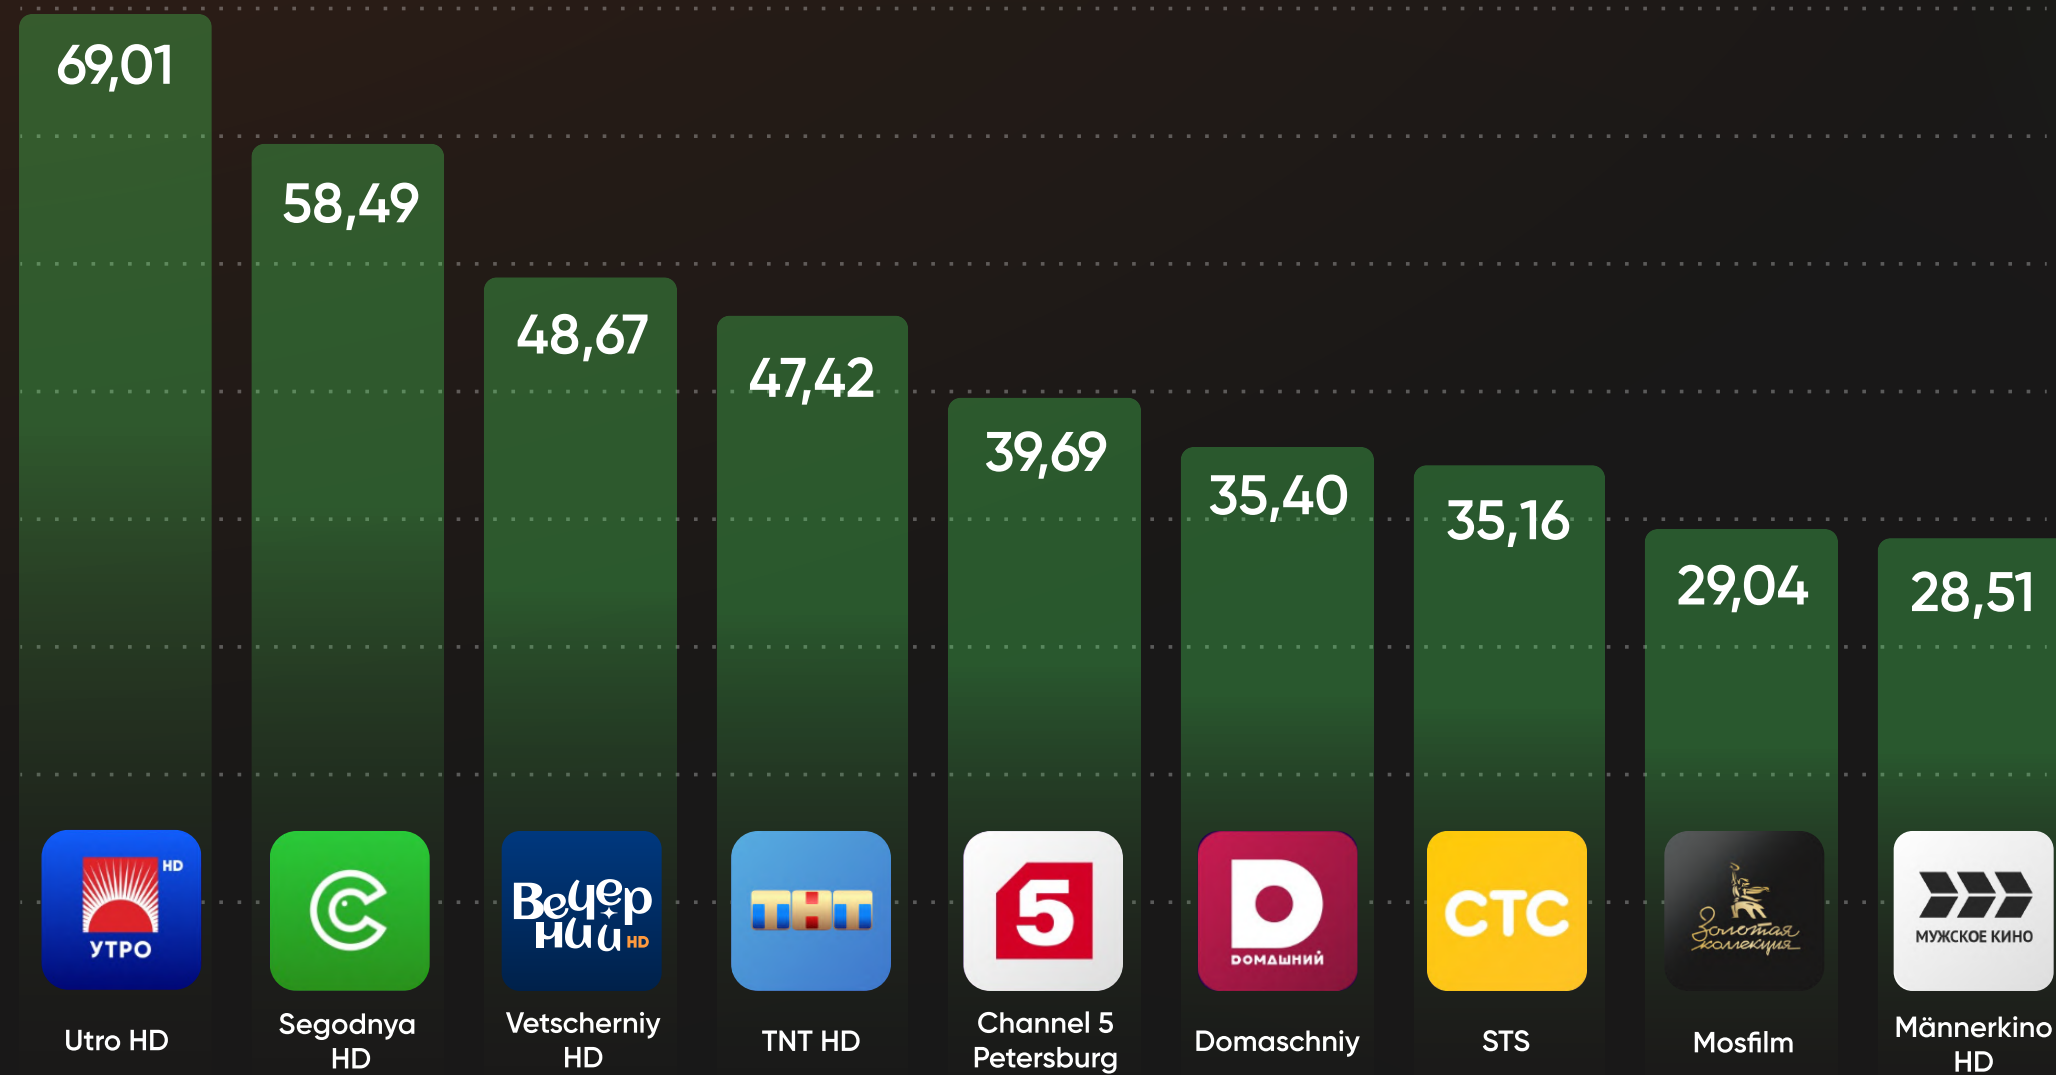

Release time 24/7

with an individual rotation plan for each customer, when switching on the channel

1. The switching duration is **10 seconds**.
2. The first display on the TV screen occurs **10 minutes** after turning on the TV channel.
3. The next display of the banner in 30 minutes (if the customer stays on the TV channel) or again in 10 minutes (in case of switching to another channel).
4. The frequency of displays depends on the order volume and the duration of the advertising campaign.
5. The banner is aimed at the target group.
Parameters for selection:
 - Geolocation (country, region, radius around the city)
 - TV channel category by topic.
